PROFESSIONAL PROFILE

Bilingual (French-English) Senior Operations and Multi-Site Leader with over 15 years of experience building, scaling, and optimizing field-based organizations across staffing, specialized services, and corporate training sectors. Expert in launching complex multi-site networks from the ground up, engineering structured SOPs, and standardizing branch operations to ensure rigorous compliance, HSE excellence, and consistent financial performance. Recognized for an entrepreneurial approach to operational design, turning underperforming regions into high-yield environments through manager coaching, visual KPIs, and data-driven workflow solutions.

CORE COMPETENCIES

Multi-Site & Field Operations: Regional Leadership, Branch Readiness, Resource Allocation, Service Continuity.

Performance Optimization: Lean Six Sigma, Visual Dashboards (KPIs), Root-Cause Analysis, SOP & Checklist Design.

Digital Solutions & Tech: Workflow Automation, Tracking Applications, Technical Specs, React/JS/Node Familiarity.

HSE, Compliance & Risk: MASE/SSE Culture, Job-Site Safety Audits, Risk Mitigation, Labor Law Compliance.

Business & Stakeholder Care: P&L Management, Budget Control, Vendor Coordination, B2B Account Management.

Talent Management: Leadership Development, Professional Training Design, Manager Coaching, Recruitment Playbooks.

PROFESSIONAL EXPERIENCE

Founder & Managing Director – Florida Eco Services

Clermont/Orlando, Florida, USA | 2023 – 2026

- Launched and managed a specialized residential and commercial field-services enterprise from zero to \$125K annualized revenue within 24 months.
- Directed end-to-end site operations, including project scoping, technical job estimation, asset/vehicle logistics, and field team scheduling.
- Instituted strict job-site safety protocols and operational checklists governing chemical usage, surface preparation, and equipment handling to eliminate rework.
- Created automated operational reporting routines and digital customer communication workflows to ensure scalability and service consistency.

Process Optimization & Digital Workflow Initiative – Aerospace/Defence Context

Orlando, Florida, USA | 2025 – 2026

- Analyzed material handling, receiving flows, and logistics handoffs within a high-security warehouse environment to identify traceability bottlenecks.
- Designed and prototyped a practical scan-based tracking tool featuring timestamped records, carrier identification, automated zone routing, and exception triggers.
- Successfully rolled out the solution for local site test use, significantly enhancing parcel visibility, internal accountability, and audit readiness.

Founder & Training Center Manager – Ofise Formation

Toulon, France | 2019 – 2022

- Established a licensed corporate training institution focused on leadership development, professional sales, and multi-site management.
- Built comprehensive educational curricula, recruited expert consulting trainers, and secured strict French national quality certifications (Qualiopi).
- Generated over EUR 110K in revenue within 18 months while maintaining premium delivery standards and complete administrative compliance.

Regional Director – ISA Developpement

Nice, France | 2018 – 2019

- Directed operations for a network of 10 staffing agencies and 35 permanent corporate employees across Southeast France.
- Strengthened manager accountability through structured weekly reporting cadences, focusing on branch-level profitability and compliance execution.
- Supervised high-volume workforce deployments (up to 50 temporary workers per site), ensuring rigorous compliance with regional labor laws and safety certifications.

Regional Director / Business Development Director – SAMSIC Group

Toulon/PACA, France | 2016 – 2018

- Built and scaled regional staffing revenue completely from scratch to EUR 11M within two years, while maintaining a disciplined 16% gross margin.
- Successfully opened, staffed, and operationalized 13 new physical branches across Southern France, targeting heavy industrial and maritime employment basins.
- Recruited, trained, and coached 35 branch personnel, introducing unified operational playbooks and performance-driven tracking.
- Negotiated complex service agreements with major industrial, maritime, and naval clients operating under highly sensitive HSE frameworks (MASE / SSE standards).

Branch / Profit Center Manager – SAMSIC Group

Contres, France | 2014 – 2016

- Launched a greenfield staffing branch from scratch, achieving EUR 1.8M in revenue within 24 months and exceeding initial target metrics by 284% at month 11.
- Coordinated site access, hazard mitigation, and worker onboarding criteria directly with client operations managers to guarantee risk-free workforce integration.

EARLIER EXPERIENCE

Contract Trainer & Consultant – Sales & Business Management | France | 2010 – 2014

- Delivered targeted operational and sales training modules for service network accounts, wellness institutions, and fitness facilities.

Founder & General Manager – Krizal'idee (B2B Brand Communication & Logistics) | France | 2009 – 2012

- Managed corporate and athletic club accounts, supervising custom graphics development, multi-supplier sourcing, and technical apparel distribution.

Fitness Center Director & Owner – Fitgym (Facility Operations & Scale) | France | 2006 – 2009

- Acquired and restructured a private athletic facility; orchestrated the deployment of LES MILLS programmatic systems, scaling membership from 290 to 650 active adherents within 24 months.

Athletics Performance Coach | France & Central Florida, USA | 2000 – Present

- Coached in competitive club environments in France; established a private high-performance track & field training group of 10-12 cross-country athletes in the United States.
